

Pamper Your Patients With Our
FIVE~STAR TREATMENT

Introducing our Five-Star Treatment

We know that you want what's best for each of your patients — a timely, accurate diagnosis and the optimal treatment plan. To help you achieve those results, NEPA Imaging Center's board-certified radiologists, using the most advanced technologies, deliver precise information to you when you need it. But that's not all.

At NEPA Imaging Center, we understand that your patients are people, too. That's why we're proud to introduce the Five-Star Treatment™ — our new initiative to enhance their comfort, convenience, individuality, personal attention and communication — to provide your patients with the best visitor experience our center has to offer.

Your patients deserve the best, and rest assured, they'll get it at NEPA Imaging Center. And they will thank you for directing them to the home of the Five-Star Treatment™.

With so much pampering, it's almost like a day at the spa.

THE FIVE-STAR TREATMENT

COMFORT

We've redefined comfort to include a plush bathrobe to wear over a gown and comfortable recliners for our PET/CT scan patients.

CONVENIENCE

In our waiting area your patients will enjoy complimentary coffee, snacks and bottled water, TV and wireless Internet access.

INDIVIDUALITY

We provide a wide selection of music to relax your patients during the scans, or an iPod hookup to listen to their own music.

PERSONAL ATTENTION

The one-to-one attention of a personal technician for the duration of all scans.

COMMUNICATION

Improved communication between staff, patients and waiting family members throughout the process.
